Greensboro, NC 27401

Attention: Adams Electric Company
Subject: Moses H. Cone Memorial Hospital
North Tower Addition and Renovation Project

I would like to take this opportunity to thank Adams Electric Company for the services and effort on the project referenced above.

Adams Electric's support during this project was paramount to the success of the Design Assist approach. The quality and workmanship was second to none and the ability to plan and execute the major utility shutdowns required for this project was very impressive. Executing this project with an aggressive schedule, while maintaining a safe working environment, is a testament to Adams Electric passion in the industry.

Thank you for your support and we look forward to working with Adams Electric on future projects.

Sincerely,

Ronald E. Galloway, PE, CHFM
Director-Construction Management
