Subject: Endoscopy Renovation at Annie Penn Hospital (Cone Health)

Dear Jordan:

It has been a pleasure working in partnership with Adams Electric Company on the Endoscopy Renovation project at Annie Penn Hospital in Reidsville, NC. This project presented to the team a unique set of challenges in maintaining productive workflow for the crews despite the discovery of several significant unforeseen conditions that had to be addressed in order to complete the project. Throughout the process, I was always able to count on Adams Electric Company to be attentive to the new project conditions, helpful with offering possible solutions to resolve the issues, responsive to my requests, and at all times available and willing to communicate and cooperate for the good of the project. Adams was a key factor in the success of this project.

In Adams Electric Company, we are delighted to have found an organization committed to providing quality service to their clients. There is no doubt that Adams Electric is a class organization, especially when it comes to work in a healthcare setting. You have definitely earned our trust and respect.

I look forward to continuing the relationship between Adams Electric Company and Vannoy Construction on future projects.

Sincerely,

A handwritten signature in blue ink that reads 'Chris Roberson'.

Chris Roberson
